INSURRECTION AT

Natives of Negros Make Appeal to the Commission

Bacolor, Island of Negroes, March 22.

—According to expressions of a large majority of the delegates from Occidental, Nagroes, and of a few who were present from the Oriental side, the sentiment of the people is overwheimingly in favor of succeeding the present governments by provincial governments in both divisions. The reasons given for this view are that such a change will effect a reduction of taxes and the high salaries of officials, the establishment of schools and the improvements of the road. The speakers alleged that owing to a lack of means of education, liberty was becoming license. The military commander is credited with having organized the only schools. They are taught by soldiers.

Commissioner Taft assured the delegation of the commissioners are at present making official inquiry into the responsibility of Pilot Jordan.

CASE OF EDITOR RICE.

War Department Sustains MacArthur in His Action.

Washington, March 22.-General Mac-Arthur's report, giving the details of the deportation of George L. Rice, the editor who was ordered out of the Philippines in consequence of articles published concerning Lieutenant Commander Braunersreuther, has been remander Braunersreuther, has been received at the war department. Mr. Rice has made no application for a review and a reversal of the action of General MacArthur, although it has been asserted that he would do so. Secretary Root says that General MacArthur was acting clearly within the scope of his authority as military governor of the Philippines. Not only this, ut General MacArthur has had special authority, under direction of the special authority, under direction of the war department, to remove from the Philippines such persons as menace the peace and good order of the island. General MacArthur's report gives in de-tail what he has heretofore cabled con-cerning the publication by Rice and the order deporting him.

Any Outsiders.

Philadelphia, March 22.—Answers have been received by President Mitchell of the United Mine Workers of America from some of the presidents of the authracite coal carrying railroads to the letter sent from Scranton under date of March 19 by nimself and the presidents of the three United Mine Workers' districts, asking them to meet the United Mine Workers' officials in a conference prior to April 1, so that a strike of the anthracite miners may be averted. President Mitchell declines to state what the character of the replies so far received are, but if they are of the same tenor as the reply of one of the presidents, he cannot feel much encouraged in his effort to bring about a conferer with the operators.

In the reply of the a sacite presi-lents referred to, Preste at Mitchell is dvised that the company he represents referreds what has been stated in former omnunications, that the company can-iot and will not recognize those not in its service, but that it is willing and ready at all times to hear those in its ac-ual employ upon any grievance that they may have. A dispatch from Scranton says:

"President Mitchell when seen today appeared to be dejected and refused to make any statement for publication. The direct question was asked: 'Have any answers been received from the operators?' The miners' leader hesitated several moments before he answered. He finally replied: 'We have received letters from several of the operators in response to the communications we sent them, but further than that I have nothing to say.'"

Meeting of the Cabinet.

Washington, March 22.-The cabinet meeting today was not protracted. The latest advices from China, largely press reports, indicating an adjustment of the acute situation between the Rus-sian and British forces at Tien Tsin, sian and British forces at Tien Tsin, was considered reassuring.' Secretary Hay submitted the recent dispatches from Commissioner Rockhill. The reports from the Philippine commission submitted by Secretary Root indicating rapid progress of the establishment of civil government at various points in the island and showing a constantly increasing disposition on the part of the creasing disposition on the part of the insurgent chiefs to surrender were considered very satisfactory,

IN MARSEILLES

Marseilles, March 22.—The employees of the street car line struck today. A few street cars are running under the pro-tection of policemen. The strikers are very much excited. They attacked one car and cut the electric wires. A fight ensued and a detachment of mounted gendarmes charged and dispersed the rioters.

gendarmes charged and dispersed the rioters.

During the scrimmage a soda water siphon was thrown at the head of a lieutenant of gendarmes and knocked him unconscious from his horse. The gendarmes in seeking to carry off the lieutenant were assailed by a volley of stones and bottles and were obliged to fire their revolvers in the air. The gendarmes then charged and cleared the streets.

This afternoon the city is quiet. The Canneb'cre, the most famous thoroughfare in Marseilles, and the leading thoroughfares are patroled by cavairy. The storekeepers are anxious and a majority of the stores are closed. The street cars have now ceased running. Reinforcements of dragoon and infantry arrived here this morning from neighboring towns.

here this morning from neighboring towns.

The prefect has conferred with the military commander regarding the measures to adopt in view of the serious outlook. It is estimated that 18,000 men are now out on strike. The strikers have stopped the street cars in the outlying quarters of Marsellies and have smashed the essential parts of their mechanism. About 1,200 free laborers are working on the docks. They are strongly protected by troops. This afternoon the strikers attacked and wrecked two street cars on the Canneblere. The engineer and conductor were roughly handled. A detachment of gendarmes and hussars succeeded in rescuing the engineer and conductor, amid the hooting and stone-throwing of the crowd.

London, March 23.—The special dispatches from Marseilies represent the situation there as very serious. The Daily Mail's correspondent says: "The inhabitants are scared by the talk of revolution. Ten thousand troops will be here today (Saturday) and a state of siege will probably be proclaimed."

At the station he gave his name as Dan Leary, and claimed to be a miner. He was found by Officer Lincoln early yesterday morning gazing into the window of a rooming house on Arst South near State street, gesticulating in an excited manner, and muttering, "There she goes, now. I know she is going to kill me. There he comes, too. Why don't they stop them?" When the officer spoke to Leary the latter shrank with fear, and pointing wildly into space, declared to the officer that "they were going to shoot him."

The steamer Miewera also brings a tragic story of the obliteration of a native village near Kumusi, New Guinea. The little settlement was completely wiped out by hostile natives from the interior. About thirty were killed and forty prisoners carried off, the latter being women and children. The same band of marauders shortly afterward attacked a mining camp in the gold fields. Henry King and Thomas Campion, owners of the mine, were killed, after being savagely tortured. Four of their native carriers were also murdered, and all the gold which had been mined during the past season carried off by the savages.

CANDIDATE AGAIN

IDAHO IS MENTIONED.

(Special Correspondence.) Washington, March 19.-It is positively known here that William Jennings Bryan will not decline a third nomination for the presidency if it is offered to him with any degree of unanimity in 1904. Politicians of note in the Democratic party have "counted out," to use a sporting phrase, Mr. Bryan as an eligible candidate for the Democrats in the next national campaign. The Nebraskan, however, has paign. The Nebraskan, however, has not yet given up the idea that he is "a man of destiny," and still believes that, if nominated for a tifird time, his opportunities for winning are better than they were in 1896 or 1900. Colonel Bryan has not yet stated that he would decline a third nomination. He has only stated that he would not seek the nomination a third time, and undoubtedly this statement upon his part can be considered. statement upon his part can be considered authentic.

a third time, and undoubtedly this statement upon his part can be considered authentic.

Colonel Bryan, it might be well to state, having shown that he is possessed of ambition, and great force of character, and, further, that no man in the history of the United States has yet declined to become a candidate for the presidency, will, without doubt, if the nomination should come to him in 1904, accept and make for a third time one of his brilliant campaigns to secure, if possible, the highest office within the gift of the people of the United States.

Colonel Bryan is at present engaged in doing what he can to "make money," to use a financial expression, and with his weekly newspaper, the Commoner, has shown to the public that he will be able to, at least, cut a figure in journalism which will make him a striking figure in this profession for the next three or four years.

Colonel Bryan recently visited the east, and while he talked "shop," it goes without saying that he endgavored to feel the pulse of the politicians of New York, Washington and elsewhere regarding the possibility of his being selected to lead the Democracy for a third time. As is well known, he has many staunch followers in the east and in the south, as well as in the west. He was disappointed with reference to the views expressed to him by politicians from all sections during his stay, in the east. It is, therefore, considered that if he can be nominated for the presidency in 1904 without great friction, he will accept and make another effort to reach the presidential goal.

Will Have Opposition.

Chihuahua, Mexico, March 22.—Dr.
H. F. Gray of Los Angeles, Cal., has purchased 5,000,000 acres of agricultural lands in Mexico and has obtained a concession from the Mexican government for the establishment of a number of Mormon colonies thereon.

These lands are divided into several large tracts, which are situated in the states of Durango, Tamulalipas, Coahilla and Vera Cruz. He says that he will bring 6,000 Mormons from Utah and other parts of the United States to Mexico within the next few months and locate them upon lands which he has purchased.

The Mormon colonies in the state of The Mormon colonies of a number of the state in passing that Colonel Bryan will not have as sumport that Colonel Bryan will not have as assumption to take the Democratic momination in 1904 as was the case at Kansas City in 1900. There are wise Democrats in the east who believe that it would be folly upon the part of the delegates to the next national convention to tender the presidential nomination to Mr. Bryan. The Nebraskan, however, is not of the same opinion, and will, if possible, use his Commoner to advance his views on domestic and international affairs in order to keep himself prominently before the people for the next three years. Will Have Opposition.

to advance his views on domestic and international affairs in order to keep himself prominently before the people for the next three years.

Without doubt Mr. Bryan will be able to accomplish what he desires, meantime making money out of the publication which he controls, with the particular end in view to secure the support of the Democratic hosts of the country and to sive him another one country, and to give him another op-portunity to make the race for the presidency in the next national cam-

Obstruction to Canal.

The attention of the committee on irrigation, which was waiting for a quorum in the council chamber last evening, was directed by Land and Water Commissioner Westerfield to the contest for the Democratic presidential nomination in 1904 will be interesting, to say the least. There are certain rules for determining the sustaining power of ice, which are applied in part by the park airhorities in New York before they will allow skating

on the ponds and lakes. Two-inch ice will sustain a man or properly spaced infantry; four-inch ice will carry a man on horseback, or cavairy or light guns; sixinch ice, heavy field guns, such as eighty pounders; eight-inch ice, a battery of artillery, with carriages and horses, but not over 1,000 pounds a square foot on sledges, and ten-inch ice sustains an army or an innumerable multitude. On fifteeninch ice a railway could be built, and two-foot-thick ice will withstand the impact of a loaded railway carriage after a Bath, Me.

ABOUT STYLE.

Our Boys' and Children's Department, besides being stocked with only the most reliable goods, is arranged to display them in the best possible manner. The light and other advantages of showing goods are not surpassed anywhere. Customers have plenty of room to see and examine what they're buying, that cannot be done where a store is dark and crowded.

The choosing of our stock is done in the same way as you would select anything for yourself. You buy where the best goods are to

be found for the price you wish to pay. We buy where we find the goods that are best suited for our trade and we make prices an important factor, that we may offer the best possible clothing value to our patrons.

You can always look here for the newest creations in children's

as well as men's wearables. We're now showing spring ideas in Suits, Topcoats, Hats, Caps, Waists, Shirts and other furnishings for little men, and everything is PROPERLY PRICED.
